

MY BIOGRAPHY

Being born in a poor family at village Guamal in the District of Bhadrak I had to struggle hard to complete my graduation. After completing primary and secondary education in my village I joined Bhadrak College to read +2 Science in the year 1984. My father was a marginal farmer and it was very difficult for him to pay for my college education. I completed my Graduation degree from Bhadrak College in the year 1989 with Botany Hons – first class and Distinction.

Then I got admitted to Regional College of Education (now Regional Institute of Education) at Bhubaneswar for one year B.Ed Course. After completion of my B.Ed course in 1991 I struggled to get a job and finally I started my teaching job in private school in the year 1993.

Then I successfully qualified to join as an Asst teacher at Govt. High School Jeerango, Dist Gajapati on 1st July 1996. The school was situated in a remote village named Zeerango surrounded by hills 35 km from Paralakhemundi in the district of Gajapati. The classes were from 6 to 10. I took the charge of class teacher of Class -6 and started teaching math and science. Teaching there was challenging as children were mostly from poor and illiterate families and their educational knowledge was not upto the standard.

Again I joined as an Asst teacher at Gopabandhu Memorial High School, Dandamukundapur in the District of Puri on 1st sept 1997. The classes were from 6 to 10. I took the charge of Science lab of the school and started teaching mathematics and science for classes 8,9 and 10.

On 1st Sept 2000 I joined as an Asst teacher at Govt. High School, Unit – IX, Bhubaneswar. I became the class teacher of VIII D. I taught Math, Science in VIII, IX and X. Here also I took the charge of Science lab of the school. Here around the 2003-04 we could manage 10 old working desktop computers from Infosys Bhubaneswar with the effort of Our then HM Bijayalaxmi Kanungo. I took the charge of those computers and started imparting some knowledge on Computer to our colleagues there. At that time I had some knowledge on computer mainly I knew MS Word, Power Point, Excel, C and C+. I took active part in showing educational videos and power point slides to the students while teaching. I also helped the students to learn word, power point and Excel. Our school was a part of AIF (American India Foundation) cluster schools in Bhubaneswar and they had given five new computers to the school and they also appointed a computer teacher to teach computer to the school students and the staff of the school. I took active part in disseminating diff. subjects through computer. I had been nominated by AIF to attend iEARN Orientation (Level-1) National Workshop as a participant held in Pune, Maharashtra on 24th and 25th Nov 2005. Then we had a well furnished computer lab. Two computer smart classes were designed to facilitate teaching learning in a interesting and interactive way. As a subject teacher in math and Science I had utilised the opportunity to teach science and mathematics through computer in a very interesting way through animated slides, videos and beautiful power point presentations.

I have attended National training in Computer one at New Delhi and other at Bhubaneswar regarding the digitilisation of the text books in e-pub software and training in open source learning sources. I have converted many chapters of Science through ePub. I have completed my master degree in computer application from Baripada University in distance mode. I have been associated with all the computer related works of the school and the district. I have also done computer related

works in the office of the Director, Secondary Education for a period of 3 months during the recruitment of contract teachers. I have also worked in RMSA during the recruitment of OAVs teachers. I have been involved in the review of computer learning videos as per the computer books in odia which was uploaded in the dikhya portal . I was involved in the publication of three computer books of the state for class 6,7 and 8 as a writer.

In the year 2022 in the month of october I was promoted to SES Headmaster and posted at Bhetinathadev Govt High School, Bheteswar which is about 6 km from Banapur in the district of Khordha. It was also a remote school with little communication. It was my first experience as a Headmaster of a school. I wanted to bring changes in many of the activities of the school such as improving the quality of MDM to the students. I introduced the blended method of teaching here and it was well received by the students and teachers.

In the year 2023 in the month of February I was transferred to my present place of posting i.e. Maharatha Govt. High School, Naharakanta, Bhubaneswar which is about 10 km from the Bhubaneswar. Within a short period of two years I have brought many changes in the school both in Infrastructure and Academic field. For the first time the school has achieved 100% result in the AHSC Exam-24 and also in AHSC Exam-2025. Young tinker lab have been established in the school which is conducting many hand on experiments like Tinkercad Blinking LED Lights, project based learning including 3d printing of various items. Recently Atal Tinkering Lab has been established in our school with lot of modern tools and equipments for science hand on experiments. A new playground was developed with my initiative and lot of efforts by the help of local communities. Computer lab and Science lab has been updated. SMC and Alumini of the school have expressed their satisfaction and faith in my work. My first priority will be enhancing the educational standard of the school and I hope to reflect all my efforts in the coming AHSC Exam-2026. Many more works to do and I am trying my best to make my school as one of the best school in my state.

MY ACHIEVEMENTS IN BRIEF
